couple coming from the direction of Phoenix in a buggy. The constable made his way toward the river and in a short time the constable "Heagle" detected a youthful couple coming at a fair rate of speed. They looked the description that he had been given over the phone and the officer immediately notified the young man that he had a warrant for his arrest. The young man seemed very much perplexed as did the young lady and they were of the opinion that surely a mistake was being made, yes a very serious mistake as they were not wanted at all, and furthermore they did not want to be delayed as they had important business. But that did not go and the young lady was brought to the Casa Loma hotel and allowed to stop there while the officer and the young man proceeded to make the distance shorter between Phoenix and themselves. Upon arriving at the hotel the young lady registered as Mrs. Arthur Reade. From the appearance of the hand writing the young lady had not written this name very many times, at least on a hotel register and that was just it. When the officer and the youth arrived in Phoenix it was found that he was wanted for swearing to a falsehood to get his license that very day. He made oath that he was nineteen years of age but according to all the evidence he was just "sweet sixteen" while the age of the lady who registered as Mrs. Reade was nineteen. The youth seemed to be very much down cast when he first learned that his marriage was illegal but in a short time he seemed to be glad to be relieved of the contract and even refused to talk with Mrs. Reade, (formerly) when she called up on the phone. It was learned that the young couple wished to marry but that the boy's parents refused to the request, they then decided to go to El Paso but thought it best to get married before they started.

MESA

MESA GOES AFTER RAILROAD SHOPS

An Aqueous Argument to the Southern Pacific.

It is understood that a concerted movement will be made by Mesa business men, through the Mesa Commercial club, to induce the Southern Pacific officials to locate the shops at Mesa instead of Phoenix. It is pointed out that the water is such at Phoenix that it cannot be safely used in the locomotive boilers. The railroad men say that the damage to each locomotive would be at least six hundred dollars should Phoenix water be used. At Mesa, on the contrary, the very best of water can be obtained, the locomotives for several years past having used water from the well at McQueen siding. There will be no difficulty in finding a good location for the shops near town, and as Mesa will be on the main line, the company would be in just as convenient a place as can be secured at the capital. Mesa is a "dry" town and the workmen would not have the temptation of open saloons constantly before them.

PUTTING IN GLASS FRONT.—Ernest Crismon is busy putting the plate glass front in the store room adjoining the Emporium on the west. The room is being fitted up for the plant of the Evening Free Press, which is to move in on the first of September. The room is well lighted, with cement floor and solid walls.

FRED FERNANDEZ ARRESTED.—Joaquin Soto filed a complaint in justice court yesterday, charging Fred Fernandez with exhibiting a deadly weapon in a threatening manner and using remarks that would indicate a determination on Fred's part of using the weapon if Joaquin did not immediately move on. Joaquin and the men with him, proceeded to move and at once took steps for the arrest of the man with a gun. The threat, it is claimed, was made against two others who were with Soto at the time. Fernandez was arrested and the case set for hearing at 10 o'clock this morning.

BOUND OVER.—Charlie Washington, the Pima Indian charged with assault on Hear-Hear Eldridge, a Maricopa woman, was held to the grand jury and his bond fixed at \$100.00. Hear-Hear is the wife of Sandy Eldridge, who is quite well known as a peddler of vegetables. Sandy is quite a character in his way, always laughing and singing. His musical ability is not altogether acceptable to his neighbors, who insist that he makes more noise than music; but to this Sandy replies

WORKING AT PROVO.—Recently Mrs. Wm. Passey left Mesa for Idaho to visit her mother, the latter being now 85 years of age. Adam Passey accompanied his mother as far as Salt Lake and from there went to Provo where he is engaged in making boxes for the fruit shippers. Adam is an expert box maker and capable of holding down a good job.

THREATENING WEATHER.—More rain is threatened by the clouds which obscure the sun at this writing and the weather man says another rain, or at least local showers, are due in the Mesa section. During the past two or three days the weather has been comfortable during the day and quite cool at night. The report shows the mean to be 82.

Maximum temperature, 94.
Minimum temperature, 70.
Mean temperature, 82.
Character of day, partly cloudy.
Direction of wind, southwest.
Forecast, unsettled, with local showers.

IS BUILDING A HOUSE.—Jack Baldwin yesterday began the erection of a cottage for one of the wealthier Mexican families. It is located in the north part of town and will be of frame, one story.

MR. STAPLEY WILL BUILD.—O. S. Stapley has the plans ready for the erection of a large business house at the corner of Robson and Main streets, on the site of the warehouse burned at the time of the fire that destroyed several of Ernest Crismon's buildings in that part of town. Mr. Stapley's plans include a substantial one-story building which will be used for an enlarged furniture business. The walls will be constructed in such a manner as to permit the building of a second story as soon as the requirements of business necessitate additional room. The recent completion of the Crismon buildings and the erection of the Stapley building will do much toward attracting trade to that part of Main street.

A BIRTHDAY PARTY.—Thursday night a birthday party was given at the home of her parents, Mr. and Mrs. M. W. Stow, by Miss Marguerite Cuber. It was Miss Cuber's birthday (exact figures not given), and there was a good turnout of her friends, some of them coming from far out on the desert. Games of various kinds were indulged in and the refreshments consisted of generous quantities of ice cream and cake. The following guests were present: Misses Druce Peterson, Eva Peterson, Iva Stall, Mary Magency, Dorcas Cavaness, Myrtle Hunsaker, Willie Irwin, and Messrs. Ralph Brimhall, Lyle North, John Stall, Harry Stall, Bert Otterson, Wainman Core, Barney Trent, Howard Peterson and Mr. Ward.

GONE TO RHODE ISLAND.—Mr. and Mrs. Edw. Noonan, who have had charge of the Alhambra hotel for several months past, left on Thursday evening for Rhode Island, in response to word of the illness of Mrs. Noonan's mother. Mr. and Mrs. Noonan are nephew and niece of Dan Mahoney, proprietor of the Alhambra. In their absence Mr. Mahoney is landlord in chief, with J. B. Lauffer temporary bookkeeper.

SCHOOL BUILDINGS OUT OF SCHOOL HOURS.—Not many years ago we closed our schoolhouse doors at 4 o'clock and allowed them to remain closed on Saturdays, Sundays and during the summer vacation. In other words, an immense amount of valuable property belonging to the people and needed by the people, was put to only half of its possible use. Now we are changing all that. We have waked up to the fact that the schools may and should be a convenient place for a wider use of the school plant is spreading over the country. At present in more than 100 cities of the United States school buildings and property are being systematically used to further the social life of the people.

The root of the movement lies deep down in the growing realization that those upon whom falls the heat and burden of the day have a right to more than mere existence. The toilers of the world have been for centuries creatures of the blind necessity of economic laws, but this era the "laissez faire" policy is dead and buried. We must give our workers the chance to live, and not the least of the needs of this many-sided business-living is that of some legitimate form of play. The man who feels no joy in the passing day is only partially alive, and lowered vitality means lowered value as a social factor. The boy who has no chance to play becomes either dull or vicious.—Mary Josephine Mayer in Review of Reviews.

A SIMPLE REQUEST.—Never before had his beautifully hooved calves traveled so fast, relates Answers. They flashed like fireworks among the Alps, and their vivid hues outthrew all the mountain flowers which they passed.

The pursuing bear was also making good progress. He did not wear hose himself, but he wore a hopeful smirk, and his tongue licked his lips as he sped after the flying man.

Suddenly a voice above them cried out: "Hi!" It came from a tourist, who was pointing his camera down at them from a safe height.

The sound of human voice seemed to give the pursued one fresh hope. He made a spurt, and drew ahead.

"Hi! Hold on there, old chap, can't you?" yelled the camera fiend.

"You're too far ahead. I can't get you both in!"

Frank Giles is wondering from the looks of his expense sheet from cantaloupe shipments, how long a vacation he will be able to take this year. He thinks he earned about \$4.00 a crate in growing, picking and packing and hauling them to the train; but is now convinced that he will have to be satisfied with smaller returns.

MISSION CONFERENCE OF M. E. CHURCH.—On September 21st the annual conference of the above church will be held in Mesa for the first time. This will be the thirtieth session. Bishop Edwin Holt Hughes, D. D., L. L. D., the junior bishop, will preside owing to the central position of our city, a generous attendance is expected. It will tax the hospitality of Mesa. The conference this year is held about two weeks earlier than customary, which of course, will insure a warm reception to the delegates. Already there is talk about the "Gem City" pumping up to receive her visitors. That is right. Let us show the true worth of our "burgh" and the actual fertility of our soil to these delegates, and they will carry away with them the indelible impression, that this is the garden spot of America. Among our guests will be some of the leaders of thought in America. Aside from the main work of the conference, there will be lectures and discussions of many interesting and live topics. The sessions will be open to all visitors.
